Re: Confirmation of Four Corners with Capral Aluminium Limited

Capral Aluminium Limited is an integrated aluminium extruder and distributor. We have over 1150 employees based throughout Australia in manufacturing, sales, distribution, and administrative and technical positions.

Four Corners has helped Capral with a number of overseas recruitment assignments over the past 2 years. This has included visa-only recruitment for specialist skilled employees from the UK and also a full recruitment service (including search and select, assistance with interviews and assessment exercises) for employees from India.

Four Corners, and Mathew Garvey in particular, have always taken the time to understand Capral's business needs and propose solutions that best fit those needs. The service provided by Four Corners for our overseas recruitment has been excellent, with suggestions to speed up applications and regular updates of status. This has been invaluable to help us through often very onerous processes.

A handwritten signature in blue ink, appearing to read "Emma Pollard", is positioned above the typed name.
