Gen-i Australasia is a leading trans-tasman ICT solutions provider and is a member of the Telecom NZ Group. We work with some of Australasia's most recognised corporate companies to provide seamless end-to-end ICT services.

Utilising our skills across IT Solutions, Network Solutions, Communication Solutions and Software Solutions we work with our clients to develop and manage ICT infrastructure and applications.

Gen-i has had difficulty to source suitable employees in the local labour market for some time. As a result of this we attended the Opportunities Australia Skills Expo in London this year. This is the largest Employment Expo in the UK for people wanting to work and live in Australia. We invited Claire McGregor from Four Corners Emigration who had been referred to us by a staff member to join us in London to offer advice to people approaching our stand regarding the visa process, assess their visa eligibility and to assist us, and the successful candidates, with the visa process.

Claire's assistance was invaluable, for both ourselves and our candidates. The visa process is daunting, Claire's knowledge and experience along with clear and concise advice, simplified the process so we were able to focus on ensuring the candidates were right for our organization and the candidates were assured their visa requirements were being addressed.

Proactive, friendly and professional, we are extremely happy with the service Claire and Four Corners provide to us. Feedback from our candidates is equally as positive.

We are looking forward to working closely with Claire and Four Corners and would not hesitate in recommending their services to other organizations.

Steven Anderton

Manager – Enterprise Solutions
